SMILEY-HALVES Mix & Match Game

THE RULES

To start the game, each player splits their SMILEY-HALVES and puts them into a bag, box or container that you can't see into.

To decide which player will start the game, each player should pick out one halfve from their container. The player with the most valuable halfve starts the game.

The aim of the game is to win 2 rounds before your opponent.

The player starting the game picks two halves from their container and connects them together. Then the player adds together the points for each halfve, which gives the player their SMILEY-HALVES Mix & Match Total.

Player 2 now picks two halves from their container and connects them together. Player 2 adds together the points of each halfve to get their SMILEY-HALVES Mix & Match Total.

The winner of the round is the player with the highest points.
The winner of the game is the player to win 2 rounds first.

THE POINTS

HAPPY	10
